

National Tracking Poll #2203106
March 15-19, 2022

Crosstabulation Results

Methodology:

This poll was conducted between March 15-March 19, 2022 among a sample of 2200 Adults. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on gender, educational attainment, age, race, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table EC14: A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child's school. In general, what is your opinion of school voucher systems?

Table EC16: An "education savings account" in K-12 education – often called an ESA – establishes for parents a government-authorized savings account with restricted, but multiple uses for educational purposes. Parents can then use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or other instructional materials; or save for future college expenses. In general, what is your opinion of an ESA system?

Table EC64: An Individualized Education Program (IEP) is a written plan developed by a team of parents and staff for a student that requires special services in a public school. To be enrolled in an IEP a student must have a physical, learning, or social/emotional disability. How many of your children, if any, are receiving services provided by your school or school district through an Individualized Education Program (IEP), or a similar special services plan?

Table EC107: An 'open enrollment' policy in K-12 education allows a student enrolled in public school to select and transfer to a public school of their choice, rather than attending a school based on where they live. A student can be allowed to transfer to another public school within their resident school district (called 'INTRA-district'). The policy is based on a first come, first served process until schools are no longer able to accommodate new students. In general, what is your opinion of an open enrollment system?

Table EC107: An 'open enrollment' policy in K-12 education allows a student enrolled in public school to select and transfer to a public school of their choice, rather than attending a school based on where they live. A student can be allowed to transfer to another public school within their resident school district (called 'INTRA-district'). The policy is based on a first come, first served process until schools are no longer able to accommodate new students. In general, what is your opinion of an open enrollment system?
