

National Tracking Poll #2301112
January 23 - February 07, 2023

Crosstabulation Results

Methodology:

This poll was conducted between January 23-February 7, 2023 among a sample of 1311 Black Parents (All Adults). The interviews were conducted online. Results from the full survey have a margin of error of plus or minus 3 percentage points.

Table Index

1	Table EDCH1_1NET: <i>Why is your child enrolled in that school type? Please select the most important reason(s). Academic quality/reputation</i>	24
2	Table EDCH1_2NET: <i>Why is your child enrolled in that school type? Please select the most important reason(s). Class size</i>	26

Table EDCH13b: A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child's school. In general, what is your opinion of school voucher systems?

Table EDCH19: An 'open enrollment' policy in K-12 education allows a student enrolled in public school to select and transfer to a public school of their choice, rather than attending a school based on where they live. A student can be allowed to transfer to a public school in another district (called 'INTER-district'). The policy is based on a first come, first served process until districts are no longer able to accommodate new students. In general, what is your opinion of an open enrollment system?

Table EDCH19: An 'open enrollment' policy in K-12 education allows a student enrolled in public school to select and transfer to a public school of their choice, rather than attending a school based on where they live. A student can be allowed to transfer to a public school in another district (called 'INTER-district'). The policy is based on a first come, first served process until districts are no longer able to accommodate new students. In general, what is your opinion of an open enrollment system?

Table EDCH24: “Microschools” are small learning environments in K-12 education typically enrolling no more than 25 students. These small schools are organized as shared learning for homeschool children, as private schools, or even using public charter or regular public school spaces. Microschools can be required to follow state and local rules depending on public/private/home school status. In general, do you have a favorable view of ‘Microschools’?

Table EDCH24a: “Microschools” are small learning environments in K-12 education typically enrolling no more than 25 students. These small schools are organized as shared learning for homeschool children, as private schools, or even using public charter or regular public school spaces. Microschools can be required to follow state and local rules depending on public/private/home school status. In general, do you have a favorable view of ‘Microschools’?
