Table EC14a: *A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child''s school. In general, what is your opinion of school voucher systems?*

Table EC14a: *A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child''s school. In general, what is your opinion of school voucher systems?*

Table EC16a: *An "education savings account" in K–12 education – often called an ESA – establishes for parents a government-authorized savings account with restricted, but multiple uses for educational purposes. Parents can then use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or other instructional materials; or save for future college expenses. In general, what is your opinion of an ESA system?*

Table EC64: *An Individualized Education Program (IEP) is a written plan developed by a team of parents and staff for a student that requires special services in a public school. To be enrolled in an IEP a student must have a physical, learning, or social/emotional disability. How many of your children, if any, are receiving services provided by your school or school district through an Individualized Education Program (IEP), or a similar special services plan?*
