

National Tracking Poll #200639
June 08-14, 2020

Crosstabulation Results

Methodology:

This poll was conducted between June 8-June 14, 2020 among a national sample of 1000 Teachers. The interviews were conducted online and the data were weighted to approximate a target sample of Teachers based on age, gender, race, and region. Results from the full survey have a margin of error of plus or minus 3 percentage points.

Table TS13: A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child's school. In general, what is your opinion of school voucher systems?

Table TS15: An "education savings account" in K-12 education – often called an ESA – establishes for parents a government-authorized savings account with restricted, but multiple uses for educational purposes. Parents can then use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or other instructional materials; or save for future college expenses. In general, what is your opinion of an ESA system?
