

Do residents of Arizona support school choice policies?

% Total Support, among All Adults (Strongly Support + Somewhat Support)

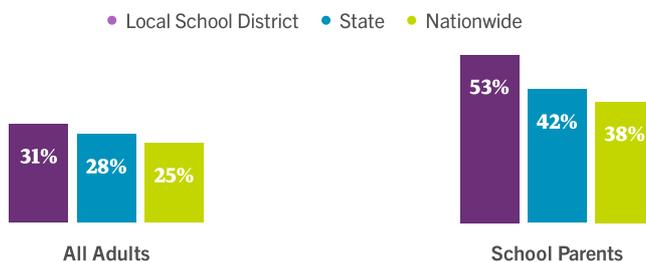

An "education savings account" in K–12 education – often called an ESA – establishes for parents a government-authorized savings account with restricted, but multiple uses for educational purposes. Parents can then use these funds to pay for: school tuition; tutoring; online education programs; therapies for students with special needs; textbooks or other instructional materials; or save for future college expenses.

A school voucher system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools. If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a 'school voucher' to pay partial or full tuition for the child's school.

Charter schools are public schools that have more control over their own budget, staff, and curriculum, and are exempt from many existing public school regulations.

Residents of Arizona think education is headed...

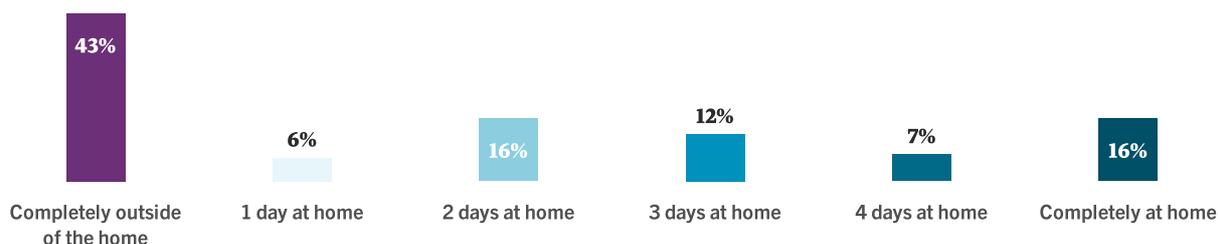

% Right Direction

Do you feel things in K–12 Education are generally going in the right direction, or do you feel things have generally gotten off on the wrong track?

Most school parents in Arizona prefer one or more days of home-based schooling for their children.

% Preference, among School Parents

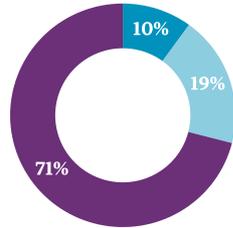

After the pandemic, if given the option, to what extent would you prefer schooling to be scheduled each week at home with a parent or tutor to provide the best education for your child?

Parents express substantial interest in learning pods and tutoring.

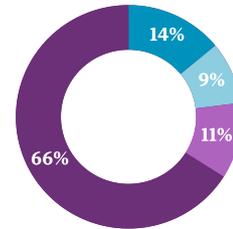

Among School Parents

- Yes, we're currently participating in a 'pod'
- No, but we're looking to form or join a 'pod'
- No, we're not planning to participate in a 'pod'

As a result of the coronavirus pandemic, are you currently participating in a 'pod' with other families? You said you're currently participating in a 'pod', is that...? You said you're looking to form a 'pod', would that be...?

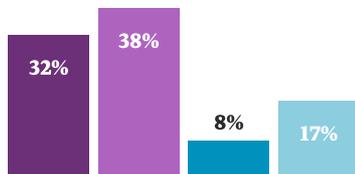

- Yes, my child is currently being tutored
- No, but I am actively looking for a tutor
- No, but I will be looking soon for a tutor
- No, my child does not need tutoring at this time

Is your child getting tutoring outside of regular school hours this school year?

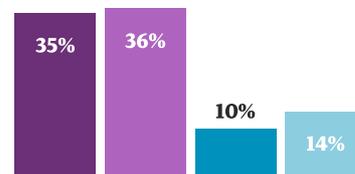

If the general public/parents could choose any school for their kids, they would prefer...

- Private School
- Regular Public School
- Home School
- Charter School

School Parents

If given the option, what type of school would you select in order to obtain the best education for your child?

School Parents

If given the option, and neither financial costs nor transportation were factors, what type of school would you select in order to obtain the best education for your child?

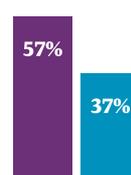

Is school funding too low? Information is powerful.

% who responded "Too Low"

- No Description
- With Description

All Adults

School Parents

No Description: Do you believe public school funding in Arizona is too low?

With Description: On average, Arizona pays \$8,694 per student attending public school each year. Do you believe public school funding is too low?

The main purpose of education?

% Extremely Important, among All Adults

Grades K-8		Grades 9-12	
	60% Core academic subjects		58% Skills for future employment
	50% Socialization		51% Become independent thinkers
	45% How to be good citizens		57% Core academic subjects
	50% Become independent thinkers		46% How to be good citizens
	45% Skills for future employment		43% Socialization
	37% Values, moral character, religious virtues		37% Values, moral character, religious virtues
	24% To fix social problems		27% To fix social problems

What do you believe should be the main purpose of education during Kindergarten through 8th grade/High School? In your opinion, how important is it for students to learn...

Methodology: These polls are fielded online, among a national sample of 2,200 general population adults (age 18+) monthly, an oversample of 700 K-12 school parents monthly. The national gen pop results include a monthly sample of approximately 500 K-12 school parents. Morning Consult uses nonprobability, stratified sampling based on age and gender for general population; race and ethnicity for K-12 school parents. The gen pop and K-12 school parent results are weighted on the following demographic variables: age, gender, region, race/ethnicity, and educational attainment. "Don't Know," "Unsure," or "No Opinion" responses, or equivalents, are occasionally excluded from the charts in order to focus on those respondents who did express an opinion.

Starting in February 2022, Morning Consult and EdChoice started to employ a method known as multilevel regression and poststratification (MRP) to state-level data for estimates. For more information, please visit:

www.edchoice.morningconsultintelligence.com/state_methodology
